

LEGEND Ranked Number 486 in the Deloitte Technology Fast 500 Asia Pacific 2004 Program

Adelaide, South Australia - (January 6, 2005). Legend today announced that it ranked number 486 in Deloitte's Technology Fast 500 Asia Pacific 2004. The program is a ranking of the 500 leading technology companies across the Asia Pacific region based on percentage revenue growth over a period of three years. Legend grew 21 percent during this period.

"Those companies that have earned a position in this year's Deloitte Technology Fast 500 Asia Pacific have made a significant achievement. The average revenue growth for the companies on the list was 400 percent, and for the top five winners - 15,783 percent. The results give us strong grounds for real confidence. The increased rates of growth and exceptional performance across all sectors reflect that Asia Pacific technology leaders are back on track," said Ian Thatcher, Partner in Charge, Deloitte Technology Fast 500 Asia Pacific.

The winning companies came from a variety of technology businesses and industry sectors from across Asia Pacific. Mr. Thatcher said: "To succeed in today's Asia Pacific technology markets, companies need to be not only customer-focused, but have the ability to adapt to changes and new technologies.

"It is also important to note that rapid growth is not limited to small businesses only - our ranking shows that over 16 percent (82) of the 500 winning companies have revenues in excess of US\$100 million and about 5 percent (24) have revenues in excess of US\$1 billion."

Eligibility Criteria for the Deloitte Technology Fast 500 Asia Pacific 2004 Program

In order to qualify for the Deloitte Technology Fast 500 Asia Pacific program, a company must meet the following criteria:

1- It must be a technology company defined as:

- A company that develops proprietary technology which contributes to a significant portion of the company's operating revenues (NB using another company's technology in a unique way does not qualify); or
- A company that manufactures a technology-related product; or
- A company that devotes a high percentage of effort to research and development of technology.

2- It must be in business for a minimum of three years.

3- It must have revenues of at least US\$50,000 in the first of the years being analysed.

4- It must be Asia Pacific owned and headquartered in the Asia Pacific region.

About Deloitte Touche Tohmatsu

Deloitte refers to one or more of Deloitte Touche Tohmatsu, a Swiss Verein, its member firms, and their respective subsidiaries and affiliates. Deloitte Touche Tohmatsu is an organisation of member firms around the world devoted to excellence in providing professional services and advice, focused on client service through a global strategy executed locally in nearly 150 countries. With access to the deep intellectual capital of 120,000 people worldwide, Deloitte delivers services in four professional areas—audit, tax, consulting and financial advisory services—and serves more than one-half of the world's largest companies, as well as large national enterprises, public institutions, locally important clients, and successful, fast-growing global growth companies. Services are not provided by the Deloitte Touche Tohmatsu Verein, and, for regulatory and other reasons, certain member firms do not provide services in all four professional areas.

As a Swiss Verein (association), neither Deloitte Touche Tohmatsu nor any of its member firms has any liability for each other's acts or omissions. Each of the member firms is a separate and independent legal entity operating under the names "Deloitte", "Deloitte & Touche", "Deloitte Touche Tohmatsu", or other related names.

About Technology, Media and Telecommunications

The Global Technology, Media and Telecommunications (TMT) Industry Group consists of more than 5,000 partners, directors and senior managers supported by thousands of other professionals dedicated to helping clients evaluate complex issues, develop fresh approaches to problems and implement practical solutions. TMT has dedicated practices in 45 countries and centers of excellence in the Americas, EMEA and Asia Pacific. We serve nearly 80 percent of the TMT companies in the Fortune 1,000. Clients of global TMT practices include the world's top software company, computer manufacturer, wireless operator, satellite broadcaster, advertising agency and semiconductor foundry - as well as leaders in publishing, telecommunications and peripheral equipment manufacturing. We work across all service lines: assurance and audit; risk consulting; tax advisory; business and technology consulting; financial advisory and corporate finance; mergers and acquisitions and Sarbanes Oxley compliance. Our practitioners invest vigorously in understanding and promoting the TMT sector, generating world-class insight via Deloitte Research; identifying upcoming industry leaders through the Technology Fast 500 programs and polling leadership opinions via our Global CEO survey.
