

Legend expands Sub Saharan Africa business

Midrand, South Africa - (June 16, 2005), In a move to increase sales across Sub Saharan Africa ASX listed LEGEND Corporation has taken full control of their South African based joint venture manufacture and distribution company Memory Performance Pty Ltd. Operating for more than 5 years Memory Performance has been the leading manufacturer and distributor of memory modules in the region. "We believe with our low cost distribution model, enhanced product linecard and global competitive pricing we can add considerably greater sales than previously achieved under the joint venture" said Rob Kester, Sales Director for LEGEND.

The South African business unit will add an additional AUD\$10M in financial year 06 and will be locally managed by the former JV manager Rob Carlton accompanied by a local sales team and support from the existing Australian operations. LEGEND in South Africa will share the same systems, processes and manufactured product linecard as the Australian/New Zealand operations resulting in greater economies of scale for the group which will increase margins and market competitiveness.

About Legend

Legend is a leading Australian electronics engineering and manufacturing company that designs, manufactures and distributes memory based products including memory modules and related computer components. Legend is globally competitive with operations extending throughout Australia, New Zealand, South Africa, Asia and Europe. Legend was established in 1989 and commenced manufacture operations in 1993. LEGEND has manufacturing facilities in Adelaide, South Australia and Johannesburg, South Africa. Legend has a broad range of clients from key global clients including Dell, Hewlett Packard, Acer and NEC to major Australian based computer assemblers including IPEX, ASI and Optima through to major merchandising chains such as Harvey Norman, Dick Smith Electronics, Kmart and Myer.
